**Subject:** RE: Update for Wastewater Treatment Facilities operated by Municipal District Services

TX0135747 – FB184; not online. This means the plant is in the process of being built. It is not online.

TX0126209 – Montgomery County MUD 83 – I have it listed as unknown because I haven't heard back from operations yet. This is what unknown means on the spreadsheet.

TX0126675 – FB50; inactive; the plant has not been built. It is inactive. At this time there are no plans to build the facility.

Thank you.

Hi Susan,

Thank you for your email. The excel spread sheet had three that did not have explanations those were:

tx0135747 15295001 houston ask I vii, llc co mud 184 wwtp (no data)

tx0126209. 14482001 y co mud (unknown)

tx0126675. 14763001. co mud50. (na)

Do you have a response for the above systems listed?

Thank you for your time,

Have a good day.  
Anisa Pjetrovic

**Subject:** Update for Wastewater Treatment Facilities operated by Municipal District Services

Hi Nancy, attached is a spreadsheet with a preliminary update for the wastewater treatment plants and collection systems operated by Municipal District Services. I had already created a spreadsheet before Anisa sent me the other so this looks slightly different than that one. If I need to redo or change it, please let me know. In general though I would like to let you know that most of our facilities have come thru fantastically! We have three facilities that are still inaccessible. One we were able to get to in a boat, but we have been unable to get to the other two. I will keep updating this spreadsheet and sending it on to you as information becomes available. If you have any questions please let me know.

Thank you.
